## SULFATE REDUCTION FOR REMEDIATION OF GYPSIFEROUS SOILS AND SOLID WASTES: UNESCO-IHE PHD THESIS (PAPERBACK)

Taylor Francis Ltd, United Kingdom, 2014. Paperback. Condition: New. New.. Language: English . Brand New Book. Construction and demolition debris (CDD) and gypsiferous soils contain elevated concentrations of sulfate which can cause several environmental and agricultural problems. Reduction of the sulfate content of CDD and gypsiferous soils is an option to overcome these problems. This study aimed to develop sulfate removal systems either by biological or chemical processes to reduce the sulfate content of CDD and gypsiferous soils in order...
