

Geodesy Primary Triangulation on the One Hundred and Fourth in and on the Thirty-Ninth Parallel in Colorado, Utah, and Nevada by William Bowie (Classic Reprint)

By William S Coast and Geodetic Survey

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Geodesy Primary Triangulation on the One Hundred and Fourth in and on the Thirty-Ninth Parallel in Colorado, Utah, and Nevada by William Bowie The primary object of this publication is to give the geographic positions, elevations, and descriptions of the main scheme, subsidiary and intersection stations determined by primary triangulation in the State of Colorado and northward, from the line Pikes Peak-Divide of the thirty-ninth parallel triangulation, approximately along the one hundred and fourth meridian to the Canadian border, and also similar data for the various stations of the thirty-ninth parallel triangulation which He in the States of Colorado, Utah, and Nevada. The geographic positions are on the North American datum, and, as far as geographic purposes are concerned, they will probably not be changed. The geographic positions of stations of the thirty-ninth parallel within the States mentioned above, as given in Special Publication No.4 (The Transcontinental Triangulation), are superseded by the positions contained herein. That publication was issued before the adoption of the North American datum. The author desires to express his appreciation of...

Reviews

This publication may be worth purchasing. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Cassandra Von**

It is straightforward in read through preferable to fully grasp. It is really simplistic but excitement in the 50 percent of the pdf. Your life span will be enhance once you comprehensive looking at this pdf.
