HANDBOOK ON THE NEUROPSYCHOLOGY OF AGING AND DEMENTIA

Book Condition: New. Publisher/Verlag: Springer, Berlin | This book offers a hands-on guide to identifying dementia. It details special considerations for conducting neuropsychological assessments and illuminates symptoms associated with specific disorders and their relationship to functional impairments. | With the aging of the baby boomers and medical advances that promote longevity, older adults are rapidly becoming the fastest growing segment of the population. As the population ages, so does the incidence of age related disorders. Many predict that 15% -...
