BRITISH COLUMBIA IN THE MAKING, 1913 (CLASSIC REPRINT) (PAPERBACK)**DOWNLOAD**

Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from British Columbia in the Making, 1913 The British Empire, and with reason, has been described as one vast commercial concern. My object in writing this book is to draw attention to British Columbia, and to show that there is something in it more than sentiment. The twentieth century of the world's progress is Canada's, and the Pacific is the Ocean of the Future. Yet, despite the advertising both have received, less is known of them in England and the world generally than is their due. Both the books and the Government pamphlets bewilder, and the cruel game of selling rotten real estate to maiden ladies, retired military officers, and the classes least able to look after their investments, has the effect of giving Canada - especially its Golden West - a bad name. In my chapter on Real Estate, Speculation, and Investment I do my best to influence capital from the older settled countries, and to indicate the chances offered in a country that has been barely scratched. I cannot too strongly point out that, although big money has been made in land speculation, there is far more money (and certain money at that) in industrial development, and especially in mining, lumbering and fishing.
