Social Dynamics - A Human Instruction Manual is a recognition of the incoherence and chaos that pervades much of the human world. As human beings attempting to live our lives, it is our duty - surely - to order the chaos of circumstance. An analysis of the human world from a human perspective, this book has been created in order to help bring greater coherence to the species at large; giving those looking an instruction manual on how to be human. Touching on issues and concerns all too common, such as Death, self-conception, self-generation, style, expression, sub-communication, Love, deceit, and many more besides: this text playfully lays foundations for those on unstable ground, lights the way for those lost in the dark, and paves new paths for those without a notion of what road to travel. Written by someone that has struggled greatly in life, this book is an abstract deconstruction, appraisal, and pragmatic strategising scintillated in response to endlessly trying circumstances, the overcoming of which the author feels has given him great insight into the human condition. Insight he wishes to...
