RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 52 pages. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1982 Excerpt: . . . 4 ITEM TABLE 21 FOR COUNTY: AREANAME ITEM The literal identifying the table will be printed, followed by the value of AREANAME. A blank line will then be printed. ITEM H40. 0 TAB21 The heading label for Table 21, PERSONS IN HOUSEHOLD AND HOUSEHOLD TYPE, will be printed in a field of 40 characters (H40. 0) ITEM U39. 0 TAB21 U30. 053 TAB21 ITEM The universe label will be printed on one line. The first line of the universe label for Table 21 in the data dictionary, Universe: Households with One or More, will be printed (U39. 0). A field of 39 allows room for this label and one blank for spacing. The next format code (U30. 053) will print the next line of universe label in a field of 30 characters, beginning in position 53 of the label. Because the universe label and its continuation line are to be printed on the same line, the 12 leading blanks which are part of the continuation label (the blanks indent the label past the word Universe:) are eliminated, and printing will begin with character 53. Note: When printing labels, if a beginning position (the position to the right of the decimal point, i. e. 053 in U30. 053) other than zero is specified, a three digit number must be used. Even though the universe label and its continuation line are two separate labels, when a beginning position is specified, CENSPAC treats them as a single 80 character label. ITEM 1 PERSON:...
