## Durban Botanic Society Report on Natal Botanic Gardens, for the Year 1897 (Classic Reprint) (Paperback)

By John Medley Wood

Forgotten Books, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. Excerpt from Durban Botanic Society Report on Natal Botanic Gardens, for the Year 1897 I regret to have to report that there has been several cases of depredation, chiefly fruit stealing, but occasionally plants have also been taken out of the beds, though nothing of any great value has been lost; still it will be necessary to make an example of some of the mischievous boys, who seem to take a delight in shifting and damaging labels, breaking off leaves, twigs, and boughs from the trees, and such like senseless practices. A sub-committee has been appointed to revise the bye-laws, and when they are assented to by Government it is intended to have them painted on a board at the entrance, which will place us in a better position to check any infraction of them, as ignorance of the regulations cannot then be pleaded, as has been done on more than one occasion, when visitors have been checked for infringement of the rules.
