PERCEPTION OF THE VISUAL ENVIRONMENT

Book Condition: New. Publisher/Verlag: Springer, Berlin | This is a text book aimed at a student taking a course on visual perception. Throughout, the book considers what it means for a man, a monkey and a computer to perceive the world. After an introduction to the subject and a discussion of methods, the book deals with how the environment produces a physical effect, how the resulting "image" is processed by the brain and by computer algorithms in order to produce...
