

## C++ Programming Today (Paperback)

By Barbara Johnston

Pearson Education (US), United States, 2007. Paperback. Condition: New. 2nd edition. Language: English . Brand New Book. For any introductory C++ Programming Language course or general introductory computer programming course. C++ Programming Today, 2/E presents the C++ language and object-oriented theory in an easy-to-read, comprehensive text. Written in an easy-to-read, informal style, it guides the reader from beginning programming through complex object-oriented techniques. The text has a large variety of program examples along with easy-to-understand figures, summary reference tables, and appendices. The text is filled with practical programming information including style guidance, debugging, multi-file program construction, and real-world, commonsense programming advice. Extensively classroom tested during development, the text incorporates the excellent student feedback and suggestions the author received. In addition, Visual C++ 2005 Express Edition is packaged with the text, providing students with an excellent development tool for learning object-oriented programming.
