VIBRATIONAL STIRRING IN BRIDGMAN CRYSTAL GROWTH

Condition: New. Publisher/Verlag: VDM Verlag Dr. Müller | Low-Frequency Vibrations to Control Fluid Flow | This PhD thesis examines a promising stirring technique called coupled vibrational stirring (CVS) with the aim of quantifying its effects so that it could be applied to the Bridgman growth of technologically important materials. CVS generated flows were directly studied using a physical modeling system containing water/glycerin. Sodium nitrate was chosen as a model growth system due to its transparent melt and solid. Lead magnesium...
