*This publication may be worth purchasing. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.*

**SUPPLEMENTAL NUTRITION ASSISTANCE PROGRAM, ENHANCED DETECTION TOOLS AND AND REPORTING COULD IMPROVE EFFORTS TO COMBAT RECIPIENT FRAUD: REPORT TO RANKING MEMBER, COMMITTEE ON THE BUDGET, U.S. SENATE. (PAPERBACK)**

Createspace Independent Publishing Platform, 2017. Paperback. Condition: New. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*. In fiscal year 2013, SNAP, the nation s largest nutrition support program, provided about 47 million people with \$76 billion in benefits. Fraud, including trafficking-the misuse of program benefits to obtain non-food items-has been a long-standing concern, and technology has provided additional opportunities to commit and combat such activities. State agencies are responsible for addressing SNAP recipient fraud under the guidance and monitoring of FNS. GAO was asked to review state and federal efforts to combat SNAP recipient fraud. GAO reviewed: (1) how selected state agencies combat SNAP recipient fraud; (2) the effectiveness of certain state fraud detection tools; and (3) how FNS oversees state anti-fraud efforts. GAO reviewed relevant federal laws, regulations, guidance, and documents; interviewed officials in 11 states; interviewed federal officials; tested fraud detection tools using fiscal year 2012 program data; and monitored websites for potential trafficking online. Although results are not generalizable to all states, the 11 states, selected based on various criteria including the size of their SNAP recipient household population and their payment error rates, served about a third of SNAP recipient households.
