Reviews

This pdf might be really worth a go through, and far better than other. It can be packed with wisdom and knowledge Its been written in an exceedingly straightforward way and is particularly only soon after i finished reading through this pdf by which basically changed me, modify the way in my opinion.

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 34 pages. Original publisher: Washington, D. C. : National Aeronautics and Space Administration, 2010 OCLC Number: (OCoLC)730951942 Excerpt: . . . 2. 2. Exploration Analogs and Mission Development: DRATS 2009 The main objective of the 2009 Desert Research and Technology Studies (DRATS) field test was to determine the adequacy of the human factors and crew accommodations in an SEV rover to satisfactorily support two crewmembers for a 14-day traverse. Along with a number of Lunar Surface Systems objectives, EVA frequency and duration estimates were sought by the Human Research Program (HRP) for use in models of physiological adaptations during long-duration lunar missions. The test was accomplished by planning and executing a 14-day traverse with the prototype SEV rover on the Black Point Lava Flow near Flagstaff, Arizona. Productivity, human factors, and performance variables were measured according to the study protocol. Detailed timelines were used to plan crewmember days during the test, and metrics related to EVAs and other tasks performed were taken. Table 1 shows the durations and frequencies of EVAs for the 14-day SEV rover traverse. During the science and exploration EVAs, ambulation was performed for contextual observation and geologic sampling. When the global positioning system (GPS) data were processed after the test, taking into account data losses and accuracy fluctuations, the average distance translated was found to be 416 meters per EVA. Table 1 - EVA durations and frequencies during 14-day SEV rover traverse 14-Day Traverse (h: mm) Avgs. Day 1 Day 2 Day 3 Day 4 Day 5 Day 6 Day 7 Day 8 Day 9 Day 10 Day 11 Day 12 Day 13 Day 14 (h: mm) 0: 21 2: 06 1: 46...
