Scholarly Research Paper from the year 2003 in the subject Business economics - Business Management, Corporate Governance, grade: very good (distinction), European College of Business and Management (ECBM) London, 8 entries in the bibliography, language: English, abstract: Ten years after the disaster of the Agean Sea, the Galician coast is once again threatened by an oil spill. Ten years, during which no effective measures had been put in place to prevent such disasters. Prestige, a 26 year old single hull oil tanker carrying 77, 000 metrics tons of heavy fuel oil, began to break up in mid-November 2002 near the coast of Spains autonomous community of Galicia and towed out to sea, finally sinking 19th November at Cap Finisterre. This place marks the extreme western point of the Iberian Peninsula, where the Prestige has created an oil slick along the coastline of Galicia, and caused one of the major economic and environmental disasters. Fishing is the source of livelihood for an estimated quarter million families in Galicia. In addition to contaminating of the Galician coastline, Europes richest in fish and shellfish, the oil has spread to Spains northern...
