Most companies know that long-term success does not hinge on any single product but on a continuous stream of value-rich products that target growth markets. Yet many firms inexplicably develop one product at a time, and by doing so fail to embrace commonality, compatibility, standardization, or modularization among different products and product lines. At last, in this timely book, Marc H. Meyer and Alvin P. Lehnerd provide a formula for turning products into profits, enabling companies to design technologically superior products more easily. Their solution is, in two words, PRODUCT PLATFORMS. They argue that firms must focus their energies on developing families of products simultaneously which share common components and technology. The authors describe how the champions of product development separate themselves from less sophisticated companies by building entire families of strong products from a single platform of common product structures, technologies, and automated product processes. These successful companies recognize and respond to new market opportunities by integrating core skills and technology in the form of new products. In this easy-to-read and practical book, the authors masterfully elucidate this dynamic and forward-thinking strategy which enables companies to develop innovative products faster, more cheaply, and with less effort. Drawing on in-depth case studies and personal experience with successful companies such as Hewlett-Packard, EMC, Black and amp; Decker, and Boeing, Meyer and Lehnerd show managers how to create extraordinary products and thereby set the standard for combined value and cost leadership in their products. They argue that when a company's products are robustly functional, elegant in their design, reasonably priced, and a pleasure to use the corporation will be equally robust. More importantly, The Power of Product Platforms reveals the methodology and organizational approach for designing, developing, and revitalizing...
