

The Photography of Colored Objects (Classic Reprint)

By Eastman Kodak Company

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Photography of Colored Objects The first edition of The Photography of Colored Objects was written by Doctor C. E. K. Mees, who stated it was an attempt to put clearly the theory underlying the photography of colored objects and the application of that theory to those branches of practice which are of the most immediate importance. While purely scientific terms and phraseology are not employed, no attempt has been made to be entirely practical, since the application of an ounce of accurate knowledge may be worth a ton of unreasoning practice. No pretence is made of being unbiased, though it is hoped that there is no conscious bias. The Eastman products are freely discussed, but the loss of generalization caused by this procedure will be compensated by the advantage to be gained from definite information. The large number of friends who have kindly assisted in the compilation of this volume makes it impossible to acknowledge all by name, and it would perhaps be invidious to mention only a few. We hope that all will...
