Createspace Independent Publishing Platform, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Understanding Fantasy Baseball - No Longer Just for Nerds provides insights into not only the basics of fantasy baseball, but also delves into complex strategies and statistical analysis to help you succeed. In each section, I first present a topic and then discuss how understanding it in detail will help you as a fantasy baseball team owner. I m certain that even savvy fantasy baseball players will be able to take away at least a few insights to improve their overall fantasy baseball experience. In one section in particular, Relative Draft Value, I provide original, self-developed formulas and strategies that you simply can t get anywhere else. I focus primarily on season long leagues; however I also have a section dedicated to daily games which have become extremely popular and deserve discussion. In short, this book goes into almost everything you need to know to start yourself down a path to fantasy baseball success.
