

Application of Analytical Biochemistry in Clinical Ground

By Srivastava, Niraj

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Nuclear Magnetic Resonance (NMR) spectroscopy has made a tremendous impact in many areas of chemistry, biology and medicine. High resolution NMR spectroscopy has been established as a powerful non-destructive and non-invasive technique with high specificity for measuring low-molecular weight metabolites in the body fluids and tissue extract that can provide complete structural analysis of a wide range of organic molecules in various pathological conditions. So, in this regard, NMR based metabonomics approach is presented here for the development of the extraction methods as well as possible disease diagnostic significance. | Format: Paperback | Language/Sprache: english | 136 pp.

Reviews

I just started off reading this article pdf. It is probably the most remarkable ebook we have go through. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Jeanette Kreiger**

I just started looking over this ebook. It is actually rally fascinating throug reading period of time. You wont really feel monotony at anytime of your time (that's what catalogues are for about when you request me).
