

Retrieval and Analysis of Orthopaedic Implants: Proceedings of a Symposium Held at the National Bureau of Standards, Gaithersburg, Maryland, March 5, 1976 (Classic Reprint) (Hardback)

By Allan Weinstein

Forgotten Books, 2018. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Retrieval and Analysis of Orthopaedic Implants: Proceedings of a Symposium Held at the National Bureau of Standards, Gaithersburg, Maryland, March 5, 1976
Welcome to the National Bureau of Standards (nbs) and to the symposium on Retrieval and Analysis of Orthopaedic Implants. We at nbs are pleased to cosponsor this symposium with the Food and Drug Administration, the American Society for Testing and Materials, the American Academy of Orthopaedic Surgeons, the Orthopaedic Surgical Manufacturers Association, and the Society for Biomaterials. The list of organizations is long and impressive, to be sure. I believe, however, that this multiple sponsorship attests to both the importance of the subject and the fact that a wide variety of competences and interests must be brought to gether if we are to reach our common goal of improving the performance of orthopedic implants, I personally am pleased to appear before you to launch this symposium aimed at achieving this goal. I have felt for many years that nbs could make unique contributions by helping to provide standards, test methods, and data that would enable manufacturers, surgeons, and agencies...
