

## Lamby: A Mother's Journey Through a Twisted Medical System to Save Her Son

Filesize: 9.09 MB

### **Reviews**

*Completely essential read publication. It is really basic but excitement in the fifty percent of the book. You will not really feel monotony at anytime of your respective time (that's what catalogues are for about in the event you ask me).*

Sma Publications, United States, 2013. Paperback. Book Condition: New. 226 x 150 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Lamby is a true story of a mother s struggle, with an often twisted health care system, to find out what was causing her infant son to be ill. From the day after his birth, Dylan had a barking cough; not normal for an adult let alone a newborn. It quickly progressed into breathing symptoms and difficulty bottle feeding. With countless trips to multiple pediatricians, as well as a hand full of specialists, all within Dylan s first few months of life, Nikki heard conflicting diagnoses. Still nothing was making her son better. He often stopped breathing, although for only seconds, but things were getting worse. He would barely feed enough to stay hydrated, sometimes vomiting over 30 times in a single day. Nikki used the most powerful tool a parent has to push through the medical system to find an answer. Her background in nursing might have been one component to the unacceptance of multiple diagnoses, but her intuition led the way, trumping radiologic scans and physician recommendations. The story takes place over the first four years of her son s life, reliving the events of his amazing yet frustrating journey from struggling to eat and breathe to the countless medical errors that occurred at a one of the top ranked hospitals in this country to the legal cover-up that silently admitted it all; The result being an amazing four year old boy who had a chance to begin a new life after finding his miracle in an unsuspecting place.
