Excerpt from Taxation of Land Values: Being Chapter VII of the Fifth Biennial Report of the Minnesota Tax Commission, 1916 The final report of the committee was presented in January of the present year. A majority of the committee recommended against the adoption of the principle of untaxing buildings, gradually or otherwise. The minority report, while favoring the total exemption of buildings, to be put into effect gradually, was not averse to a law requiring a progressive reduction until the rate on buildings should be one-half the rate on land, believing the reduction would prove so satisfactory that ultimately the public would demand complete exemption of buildings.
