Peter Lang Publishing Inc, United States, 2013. Paperback. Condition: New. New edition. Language: English . Brand New Book. Beginning in the mid-2000s, celebrity gossip blogs exploded into the media market, challenging the traditional dominance of print tabloids as the primary space of celebrity dish and reconfiguring the audience's role in celebrity culture. This book is a critical and historical examination of the impact of the technological and textual shifts engendered by new media on the use of celebrity gossip as a form of everyday cultural production. Examining six popular American gossip blogs - Perez Hilton and Jezebel among them - at a peak moment of influence in the mid-2000s, this book explores how the technological affordances of new media enable the merging of the social practice of gossip with the practice of reading, creating an evolving participatory and community-based media culture that continues to transform celebrity culture in the digital age.
