Createspace. Paperback. Condition: New. This item is printed on demand. 255 pages. Soulshine is the first book in the Soulshine Trilogy. The second book of the series, Soulquest, will be published in winter 2011. Fans of fantasyadventure with romance as a sub-genre will enjoy this series. This first book lays the groundwork for the main characters. Evan is a young man (well. . . young LOOKING anyway) who has been around long enough to personally know Socrates, the apostle Paul, and Shakespeare. Michelle is a twentieth century girl who is everything Evan has been looking for. . . at least everything required for him to want to make certain that she shares his immortality! Soulshine culminates in a twist of events that produces a surprising element of ironic role reversals. Soulquest reveals the fate of the myriad of interesting Soulshine characters and introduces an enigmatic young time traveler and visitor from the future named Tristan Heat, whose name will be the title of the final book in the trilogy. An ancient elixir that prevents aging, time travel and a romance spanning the ages. . . a combination that will keep the pages turning! This item ships from La Vergne,TN. Paperback.
