Xulon Press, 2014. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.A Christian and a doctor, the author saw a need for a guidebook for other Christian doctors to help merge their faith and their medical practice. Christian physicians have a hard time being evangelical about their faith within their professional lives. Patients of these Christian doctors are not sure how their faith is supposed to be considered in their medical treatment plan. Both doctors and patients have abandoned any mention of Christianity within medical offices. Every Christian doctor should be bold within and outside of the medical office thus, allowing Christian patients to share their beliefs with their doctor who shares the same faith. This book provides the reasons to do so from a Biblical standpoint, as well as from the more formal, evidence-based medicine that doctors are taught to rely on when making a medical decision. This guidebook shows how to incorporate Christianity into the medical office on all levels, ranging from office staff to treatment plans. It is also meant to be a guide for Christian patients who want their doctors to include their faith in their patient/doctor relationship. This book has been written to elevate the relationship shared by the doctor and patient. Both doctor and patient, being in Christ, have a crucial role and responsibility to each other in the doctor-patient relationship. This book is meant to expand the consciousness of the Christian medical community.
