Almost forty years ago we launched the Voyager Space Probe. It was a feat of human ingenuity. The craft explored the outer planets, sending back information and images to expand our knowledge of this universe. When its mission was complete, Voyager left our solar system for interstellar space. Although we stayed in contact with it, we felt its mission was over.but we were wrong. The moment it left our solar system it was detected by an alien race who were unaware of our location. With intelligence and technology centuries beyond ours, we would stand no chance against this enemy. Our only hope would be to wield a force beyond that of science and man. But what will be the ultimate cost of using such a power? Technology vs. Magic - Winner gets Earth.
