## The National Sustainable Fuels and Chemicals Act of 1999 and Biomass Research: Hearing Before the Subcommittee on Risk Management, Research, and . One Hundred Sixth Congress, First

By U. S. Committee On Agriculture

Forgotten Books. Paperback. Condition: New. This item is printed on demand. 78 pages.

Dimensions: 9.0in. x 6.0in. x 0.2in.Excerpt from The National Sustainable Fuels and Chemicals Act of 1999 and Biomass Research: Hearing Before the Subcommittee on Risk Management, Research, and Specialty Crops, of the Committee on Agriculture, House of Representatives, One Hundred Sixth Congress, First Session on H. R. 2827, October 19, 1999Wyndmoor, pa, and our other regional laboratories in New Orleans and Albany, ca. Another product that is making significant progress is biodiesel. Biodiesel, as well as lubricants, chemicals, and solvents produced from agricultural fats and oils, offer another opportunity to sup plant petroleum derivatives. In doing so, an expanded market for agricultural fats and Oils may develop, providing farmers with high-volume markets for high-value, non-food products. Like ethanol, biodiesel has a positive net energy balance. This high energy efficiency translates to a much lower emission of greenhouse gases compared to petroleum-based fuels. Usda conducted a study with the Department of Energy at our National Renewable Energy Laboratory that found the use of bio diesel reduces net carbon dioxide emissions by 78 percent relative to petroleum diesel. Selected niche market opportunities for biodiesel are emerging. As a result...
