A Cybernetic Model of Human Change and Growth (Classic Reprint) (Paperback)

By David A Kolb

Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from A Cybernetic Model of Human Change and Growth Everyone who helps, be he a therapist, a teacher, a management consultant or a social worker, uses some theory about how people change. In some cases, most notably psychotherapy, this theory is quite explicit and highly articulated. Therapists consciously use their theory of personality change to choose their interventions with clients. In many other instances, the helper's theory of change is more implicit, often a series of strongly held beliefs that are poorly spelled out and not systematically related to one another. In either case there are, in most helping professions, continuing highly emotional battles about the correct approach to use in dealing with a client. In education the conflict between traditional and progressive approaches has continued for centuries. The parallel issue in child-rearing practice has been between advocates of strict discipline and advocates of permissiveness. Welfare debates often focus on the nature of human nature is man inherently lazy or does he have a drive for self-fulfillment and self-respect. Consultants and therapists argue heatedly about the relative merits...
