Springer, Netherlands, 2012. Paperback. Book Condition: New. 1992 ed.. 244 x 157 mm. Language: English . Brand New Book ***** Print on Demand *****.This is the second volume of BUILDING 2000, a pilot project of the Commission's RD- programme Solar Energy Applications to Buildings with the purpose of encouraging the adoption of solar architecture in large buildings. In a first volume, a similar series of studies is presented for the building categories: SCHOOLS, LABORATORIES and UNIVERSITIES, and SPORTS AND EDUCATIONAL CENTRES. In this second volume the results of the design studies illustrating passive solar architecture in buildings in the European Community are presented in particular for the building categories: OFFICE BUILDINGS, PUBLIC BUILDINGS and HOTELS AND HOLIDAY COMPLEXES. There was an enthusiastic response from project teams responsible for the design of 32 large buildings with a total construction budget of more than 140 million ECU. The willingness to improve their building concepts by collaborating with RD-experts was encouraging to the Commission's action in this field. These two books reflect the results of the exchange of information between the actual design practitioners and the European RD-community. Within the BUILDING 2000 programme Science and Technology at the Service of Architecture...
