R.S. Means Company Ltd, United States, 2008. Paperback. Condition: New. Language: English . Brand New Book. In a tight economy, this book offers clear financial benefits: Helps homeowners immediately cut their utility bills. Fits with the trend toward smaller home improvements most of the projects require only a modest investment. Gives readers an edge when they sell their homes buyers are especially looking for energy-efficiency, but they re also tuned into green health and environmental concerns. The books projects range from quick, easy, low- or no-cost tasks like insulating a water heater, sealing foundation cracks, or painting with insulating paint to bigger-ticket items such as installing a new energy-efficient heating system, windows, or green flooring. For each project, readers will learn: the steps required; material and installation options; what the improvement will cost; payback in savings on utility bills; health, comfort, and environmental benefits. More than 65 Go Green tips highlighted throughout the book give readers ideas for quick, easy, and often low- or no-cost things they can do, right away, to make their homes and lifestyles greener. Projects include: Green flooring paint options Environmentally friendly cabinetry countertops Whole-house insulation weather-stripping High-efficiency heating cooling Water conservation Efficient lighting, appliances plumbing fixtures including Energy Star and WaterSense models Solar electric and water heating systems Eco-friendly roofing siding Energy-efficient windows, doors skylights Green materials for patios, walkways driveways Landscaping irrigation for water conservation and energy.
