Mathematical Theory and Computational Practice

By Ambos-Spies, Klaus / Löwe, Benedikt

Condition: New. Publisher/Verlag: Springer, Berlin | 5th Conference on Computability in Europe, CiE 2009, Heidelberg, Germany, July 19-24, 2009, Proceedings | CiE 2009: Mathematical Theory and Computational Practice Heidelberg, Germany, July 19-24, 2009 After several years of research activity, the informal cooperation Computability in Europe decided to take a more formal status at their meeting in Athens in June 2008: the Association for Computability in Europe was founded to promote the development, particularly in Europe, of computability-related science, ranging over mathematics, computer science, and applications in various natural and engineering sciences such as physics and biology, including the promotion of the study of philosophy and history of computing as it relates to questions of computability. As mentioned, this association builds on the informal network of European scientists working on computability theory that had been supporting the conference series CiE-CS over the years, and now became its new home. The aims of the conference series remain unchanged: to advance our theoretical understanding of what can and cannot be computed, by any means of computation. Its scientific vision is broad: computations may be performed with discrete or continuous data by all kinds of algorithms, programs, and machines. Computations may be made by experimenting with any sort...
