Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.A major setback for many young men and women growing up in today's world is that of a lack of meaningful paternal involvement in their lives. Shockingly, it makes no difference that some of them have Christian fathers. They do not experience the love, affirmation and support of their father because dad is failing to perform his God-given roles such as to train, guide, protect, mentor, inspire, and provide for his children. The father factor is one of the most important elements in helping young people to grow up to become successful individuals and to be strong when confronted with the storms of life. It addresses multiple issues including the effects of modern day culture of liberalism on the family, why growing children gravitate to the counsel of their peers and why fathers lose their ability to influence their children's priorities, principles and performance. This is a book that every father and prospective father should read. Based on feedback obtained during the publishing process, it is suggested that this book could be used for didactic purposes in discussion...
