## The Race for Wireless: How Radio Was Invented (or Discovered?)

By Gregory Malanowski

Authorhouse. Paperback. Condition: New. 148 pages. Dimensions: 10.9in. x 8.4in. x 0.6in. The book is not only a history of development of wireless communication, or the radio, as it was later named. It also presents portraits of fascinating visionaries, experimenters and scientists and the stories of their successes and failures. The history begins as a race between inventors, but later becomes a race chiefly between corporations. Even today, there are a great number of contradictory opinions and common beliefs regarding the fatherhood of the wireless. At the end of the 19th and the beginning of the 20th centuries, the exchange of information was slow and unreliable. Many talented individuals worked concurrently in different parts of the world, trying to develop the same wireless apparatus and not knowing that they already had competitors. Sometimes, inflated egos undermined their success. Some of the inventors lacked integrity. Legal battles ensued. So, who was the first at the finish line To determine who was the winner of the race for wireless, or who can be named the father of the wireless, substantial amounts of historical and political background as well as a thorough analysis of inventions are included in this book. The story is based...
