Bored with living in the shimmering Void with his bickering Uncle Deva and Aunt Penelope, Mr g creates time, space, and matter-then moves on to stars, planets, consciousness, and finally intelligent beings with moral dilemmas. But even the best-laid plans can go awry, and Mr g discovers that with his creation of space and time come unforeseen consequences-especially in the form of the mysterious Belhor, a clever and devious rival. As Mr g watches his favorite universe grow into maturity, he begins to understand how the act of creation can change the Creator himself.
