

## Tumor Therapy Monitoring with Diffuse Optical Spectroscopies

Filesize: 4.46 MB

### **Reviews**

*This created book is wonderful. It is amongst the most amazing book i have got go through. I am just effortlessly will get a enjoyment of looking at a created publication.*  
(Prof. Jasper Murazik PhD)

## TUMOR THERAPY MONITORING WITH DIFFUSE OPTICAL SPECTROSCOPIES

Condition: New. Publisher/Verlag: VDM Verlag Dr. Müller | Preclinical and Clinical Applications | The diffuse optical technique using Near-Infrared (NIR) light provides a promising means for non-invasive imaging and clinical diagnosis of deep tissues. This book focuses on a multi-modal diffuse optical technique combining two qualitatively different methodologies: Diffuse Reflectance Spectroscopy (DRS) and Diffuse Correlation Spectroscopy (DCS). This approach permits real-time, non-invasive and simultaneous quantification of tissue hemoglobin concentration, blood oxygen saturation and blood flow. This book outlines the basic principles, mathematical modeling and then practical instrumentation that enable monitoring of tumor responses to therapies in preclinical and clinical contexts. Targeted audience of this book is scientists who are interested in basic principles of diffuse optics and its applications to translational research and medical doctors who are interested in practical tools for therapy monitoring in clinics. | Format: Paperback | Language/Sprache: english | 136 pp.
