## Mission Mathematics II: Grades 6-8 (illustrated edition)

By Michael Hynes

National Council of Teachers of Mathematics, U.S. Paperback. Book Condition: new. BRAND NEW, Mission Mathematics II: Grades 6-8 (illustrated edition), Michael Hynes, "Get your students into maths using outer space! Mission Mathematics translates the NASA experience into language and experiences appropriate for young learners and provides teachers with mathematics activities that complement many of the available NASA resources for students and educators. The materials in this book emphasise thematic modules, discourse, assessment, the formation of student teams and mathematical content. Sample activities include making a scale model of the solar system; investigating space and speed; collecting data on Martian rocks; designing, building and flying paper airplanes; making a windsock; analysing the cargo space of the Space Shuttle and studying the migration of whales. Resource pages for students are included in the appendix. The Mission Mathematics II series. The Mission Mathematics II series is developed by NASA and NCTM in an unprecedented effort to link the science of aeronautics with the Standards that NCTM has developed for all aspects of mathematics education. Following the publication of the original Mission Mathematics series in 1997, this revision focuses on aligning the activities with NCTM's Principles and Standards for School Mathematics (2000) in the context of aerospace activities. The...
