Createspace, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.The highly anticipated sequel to Last One To Die. Michael Essington is a gifted writer. This book is a page turner, and you won t want to put it down. James Frey, Bright Shiny Morning, Final Testament of the Holy Bible I absolutely love the way he writes his stories. As I read, I feel as if I m there sharing the experience with him. Great flow, never a dull moment and oh so honest. Never pretentious. I lived in Hollywood for a very long time so it takes me back there making me realize what we consider just another day are very interesting stories. I love to relax with a good book of stories to escape from reality and Michael s writing takes me where I need to go. All I have to say is More, please? Such an inspiration to me. Thanks Michael. Texas Terri Laird, Texas Terri Bomb Holy Fucking Shit, it s excellent. Seriously. It s really fucking fantastic. Last One To Die was killer--this one is even beyond it thus far. I think the confidence you gained from the first book is put to fine, fine use. Though you still don t sacrifice any of the rawness to the stories, you re approaching the telling of them with a flair and dynamism that makes everything all the more gripping. That first story about your mom and the grave really started things out with guts, and what I ve read that follows doesn t let up. Dave Gurz, Subterranean Emerald City Blues, You re Going To Die Out There.
