

Ice Age Mammals of North America: A Guide to the Big, the Hairy, and the Bizarre

By Ian Lange

Mountain Press Publishing Company. Paperback. Book Condition: New. Paperback. 226 pages. Dimensions: 9.4in. x 7.3in. x 0.7in. The time is the Pleistocene epoch, about 2 million to 10,000 years ago. Continent-size ice sheets cover 30 percent of the earth's landmass, and strange creatures rove the landscape. Ice Age Mammals of North America transports you to the world of saber-tooth cats, woolly mammoths, four-hundred-pound beavers, and twenty-foot-tall ground sloths. Illustrated descriptions of the animals form the heart of the book and the final chapter explores why so many of these animals were extinct by the end of Pleistocene time. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.

Reviews

A new electronic book with a new perspective. Better than never, though I am quite late in start reading this one. Your life period will be change the instant you comprehensive looking at this pdf.

-- Dr. Constantin Marks II

The most effective publication I ever study. I am quite late in start reading this one, but better than never. You won't sense monotony at whenever you want of your time (that's what catalogs are for concerning in the event you ask me).

-- Prof. Erin Larson I
