And we are the most fortunate generation that ever will. --George Monbiot What George Monbiot means by this is that our civilization has leveraged the awesome power of fossil energy to create a world that only a short time ago would have been nearly unimaginable. Our health, our wealth, our leisure, our freedom from tyranny and struggle, are all benefits bestowed upon us by harnessed energy of oil and coal. But the price of these gifts has been a growing environmental crisis. Our atmosphere is filling up with carbon dioxide, which is released by the burning of fossil fuels. Carbon dioxide traps the sun s heat, causing the temperature of our planet to rise. The reason why future generations are unlikely to be as fortunate as us is that fossil energy is just too good to be true. We cannot go on enjoying the benefits of this dirty energy. We must either address the problem, which will be a tough challenge involving many sacrifices, or ignore it, with unthinkable consequences. George Monbiot s Heat: How to Stop the Planet from Burning marks an important moment in our civilization s thinking about global warming. The question is no longer whether climate change is actually happening. The question is what to do about it. Monbiot offers an ambitious and far-reaching program to cut our carbon dioxide emissions to the point where the environmental scales start tipping away from catastrophe. (But not before he devotes a chapter tounmasking the vested interests that have spent fortunes funding the specious science...
