

Human Thermal Environments: The Effects of Hot, Moderate, and Cold Environments on Human Health, Comfort, and Performance (Hardback)

By Ken Parsons

Taylor Francis Inc, United States, 2014. Hardback. Condition: New. 3rd Revised edition. Language: English . Brand New Book. In the ten years since the publication of the second edition of Human Thermal Environments: The Effects of Hot, Moderate, and Cold Environments on Human Health, Comfort, and Performance, Third Edition, the world has embraced electronic communications, making international collaboration almost instantaneous and global. However, there is still a need for a compilation of up-to-date information and best practices. Reflecting current changes in theory and applications, this third edition of a bestseller continues to be the standard text for the design of environments for humans to live and work safely, comfortably, and effectively, and for the design of materials that help people cope with their environments. See What's New in the Third Edition: * All existing chapters significantly updated * Five new chapters * Testing and development of clothing * Adaptive models * Thermal comfort for special populations * Thermal comfort for special environments * Extreme environments * Weather * Outdoor environments and climate change * Fun runs, cold snaps, and heat waves The book covers hot, moderate, and cold environments, and defines them in terms of six basic parameters: air...
