THE GEMINI CONSPIRACY (PAPERBACK)

Createspace Independent Publishing Platform, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.The Gemini Conspiracy explores the unbridled exploitation of the apparatuses of power in which predator becomes prey within concentric spheres of Machiavellian manipulation. It is also a story of great sacrifice and the power of dogged determination in the face of the unthinkable consequences of failure. The young protagonists must discover and defeat invisible puppeteers in a desperate race to save two kidnapped boys--and possibly a nation. Glen Cannon and his bewitching associate, Ginny Blaine, fall into inescapable intrigue and mortal danger as the underpinnings of the Gemini discovery are realized--and snapped up by unseen forces intending far different purposes. During an MRI after a Pee-Wee soccer head injury, a savvy pair of Duke University physicians witness what is to them the unfathomable. Yet they cannot deny that the child in their machine has briefly assumed the sentience of his identical twin, waiting with their mother in another room. A government technology futurist spots the doctor's publication of what they describe as induced telesthesia. Intending to exploit what becomes known as the Gemini Effect, NASA launches a small research project as an element of its paramount program, the Deep Space Initiative. But can Gemini be controlled? Can it be made to operate between any two individuals? Mel Clarkson, the President Russell E. Davis (RED) science adviser, alerts his boss to certain unintended consequences to the Gemini effort, however promising might be the payoff from the harmless application NASA is pursuing. RED places Gemini under the watchful eye of his old friend, CIA Director Gen. Hume Stiller. Worried, RED confides to his wife the calamity that Gemini might portend--should it slip into hostile hands. He is unaware that his father-in-law...
