Thorough manual for pdf lovers. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.

However, with the spells in this book you are going to find that if you mess one up, you are going to end up facing some serious issues. But, do not let that stop you! If you are ready to take on the spell and believe that you have the skills necessary to make the spell successful, then you should go for it! You made it this far, and you believe that you have grown in your craft enough that you can take on more advanced spells and you should not allow anyone to say you are not ready. Please keep in mind that the spells in this book are for those that are advanced Wiccans only.
