What would you do if you ever encountered a spirit or otherworldly entity? Do you think you would flee the scene, screaming as you put as much distance between you and the unknown? Or would you try your hardest to communicate with the entity? The idea of ghosts and spirits is not a new concept. Records of ghosts have been reported since the beginnings of civilization as we know it. But nothing prepares you for the moment you eventually come face to face with a paranormal entity. This book covers many houses, public places and forests that are said to be the homes of the supernatural. In these places, the spirits are not shy in the presence of the living. Often they will whisper in a person s ear or touch the small of their back with their unseen, freezing fingertips. These spirits recollect fragments of their previous life-moments in which they too had been alive and well. Each haunted location in our world has a unique background-a context in which to approach each marvelously haunted place. Sometimes the world is cruel and will steal a young life, or make a person endure a brutal and painful death. It is important to understand why certain spirits we encounter in specific places may seem angry or upset, and we must interact with them in a manner that reflects our understanding of the life they had lived.
