

Biomarkers discovery for pancreatic cysts

By Cuoghi, Aurora

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Proteomic applications to identify useful biomarkers for early detection of malignant pancreatic cysts | Over the last few years, the use of proteomics applications in order to study and characterize human pathologies has increased exponentially. Nowadays, the attention is particularly focused on the discovery of tumour biomarkers. Cancer takes millions of life each year, mainly because the disease is often detected too late. This book, therefore, provides a new approach focusing the attention on a strictly related sample with the tumour micro-environment, such as pancreatic cystic fluid, increasing the probability of finding proteins involved in a malignant transformation of the lesions. | Format: Paperback | Language/Sprache: english | 100 pp.

Reviews

Very good electronic book and valuable one. It is actually written in basic words instead of difficult to understand. I discovered this ebook from my i and dad encouraged this publication to discover.

-- Prof. Jevon Frami

The publication is simple to go through preferable to fully grasp. I am quite late in start reading this one, but better than never. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- Mrs. Josiane Collins
