INTRUSION PREVENTION SYSTEM

Alphascript Publishing Jan 2010, 2010. Taschenbuch. Condition: Neu. Neuware - An Intrusion prevention system (IPS) is a network security device that monitors network and/or system activities for malicious or unwanted behavior and can react, in real-time, to block or prevent those activities. Network-based IPS, for example, will operate in-line to monitor all network traffic for malicious code or attacks. When an attack is detected, it can drop the offending packets while still allowing all other traffic to pass. Intrusion...
