REAL TIME DATA MINING

Self-Help Publishers. Paperback. Condition: New. 154 pages. Dimensions: 9.lin. x 6.lin. x 0.5in. Data mining is about explaining the past and predicting the future by exploring and analyzing data. Data mining is a multi-disciplinary field which combines statistics, machine learning, artificial intelligence and database technology. Although data mining algorithms are widely used in extremely diverse situations, in practice, one or more major limitations almost invariably appear and significantly constrain successful data mining applications. Frequently, these problems are associated with large increases...
