A GUIDE TO DOCUMENTARY SOURCES

Createspace, United States, 2015. Paperback. Book Condition: New. 254 x 178 mm. Language: English . Brand New Book ***** Print on Demand *****.Although the U. S. Air Force emerged as a separate military arm of the government only a quarter of a century ago, its history goes back to the Civil War when the Union Army sent men aloft in balloons to observe the movements of the Confederate Army. Documents dealing with these early air operations in the department of aeronautics -as well as the subsequent activities of successor aeronautical agencies including the Air Force-are preserved in several dozen public and private repositories throughout the nation. They include not only the official government documents on the Air Force but also the personal papers of individuals who helped develop the service and those of military commanders and pilots who flew into combat in two World Wars, Korea, and Vietnam. This guide seeks to aid scholars and researchers to locate collections of primary and secondary documents on the Air Force. The first part deals with official Air Force depositories, which are essential to the historian writing about its operations worldwide. The second part describes the equally important collections of the National Archives and its depositories, including the pertinent papers in the Presidential Libraries. The third part covers university and college collections of personal papers of various military and civilian leaders, as well as other documents, which deal with the Air Force. Other governmental depositories-federal, state, and local-plus a number of private collections where Air Force material may be found are listed in part four. Finally, the last section describes a variety of other collections where primary and secondary materials on military, naval, and civil aviation-which directly or indirectly have impinged on the development of the Air Force-may be found. This guide was...
