The ebook is great and fantastic. We have read and i also am sure that i am going to likely to go through once again again down the road. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Lexington Books, United States, 2005. Hardback. Condition: New. New. Language: English . Brand New Book. The volume of new municipal bond issues has increased dramatically over the past thirty years. This new book by Alan Steiss provides an essential and comprehensive guide to the various new fiduciary and fiscal instruments used in the capital budgeting and finance process in the public sector. Steiss convincingly argues that capital budgeting and debt administration, when pursued from a strategic planning perspective as opposed to the more conventional cost-based framework, provides a forward-looking alternative based on a jurisdiction's needs, its resource base, and growth potential. Strategic Facilities Planning illustrates how the allocation of fiscal resources to acquire or construct and maintain strategic facilities can serve as a primary instrument for the effectuation of long-range public policy objectives. This book will serve as an important reference or course text for students and a guide for practitioners in public and business administration and urban planning.
