Texas State Historical Association,U.S., United States, 2005. Hardback. Condition: New. Language: English . Brand New Book. In 1946, Williamson County, Texas, was profoundly rural. Reflecting the Democratic Party represented in Congress by Lyndon Baines Johnson, the county was based on an isolated agricultural economy and contained a rich brew of ethnic groups and cultures. Half a century later, Williamson County was one of the five fastest growing counties in the United States, a staunchly Republican homogeneous supersuburb north of Austin whose economy depended on the global market for computers and other high-technology products. How did this radical transformation occur? It came about largely through the machinations of a handful of local political and economic bosses who brought to Williamson County two great federal public works projects: Interstate Highway 35 and a dam on the tiny San Gabriel River. Without these three key ingredients, the kind of growth that has occurred outside...
