

Wages and Hours of Labor in the Iron and Steel Industry, 1907 to 1920

By United States Bureau Statistics

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1922 Excerpt: . and 5 nights alternately, or 6 days and 6 nights with one extra turn every fourth week. The 12-hour turn was most common among all of the alternating employees, except those working 7 turns per week. A total of 782, or 60 per cent of the 6-day workers, and 1,377, or 49 per cent of those working 7 days and 6 nights, alternately worked a 12-hour turn, while 1,970, or 77 per cent of the 7-day workers, worked on turns of 8 hours. The length of the day turn is not always the same as that of the night turn, as shown by the fact that 1,928, or 29 per cent of the total number of employees, worked turns of different lengths, 910 working 11 hours when on day turn and 13 hours when on night turn, and 841 working 10 hours on day turn...

Reviews

Unquestionably, this is actually the very best job by any article writer. I have read and that i am certain that i am going to planning to go through once again once more in the foreseeable future. I realized this publication from my i and dad advised this pdf to find out.

-- **Rusty Hamill Sr.**

It in a of the most popular book. It really is filled with wisdom and knowledge You may like how the article writer publish this pdf.
