

Fish Population and Aquatic Conditions in Polluted Waters in Louisiana (Classic Reprint) (Paperback)

By James T Davis

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Fish Population and Aquatic Conditions in Polluted Waters in Louisiana The pollution problem in Louisiana, while under excel lent control and subject to stringent laws, is still far from solved. There is still much to be done toward determining the exact relationship between polluted waters and fish production, fish utilization and fishing success. The object of this study has been to devise a system of surveying polluted areas so that data needed to establish a workable effluent discharge compatable with acceptable fish manage ment may be maintained. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy.
