Reviews

Completely among the finest book I have actually read through. It is probably the most remarkable book we have study. I discovered this book from my dad and i suggested this book to learn.
(Georgiana Pacocha)

ANNUAL REPORT FOR THE YEAR ENDING OCTOBER 31, 1941 (CLASSIC REPRINT) (PAPERBACK)**DOWNLOAD**

Forgotten Books, 2017. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Annual Report for the Year Ending October 31, 1941 The squash vine borer is particularly injurious to winter squash. Previous observations indicated that vines which attain some size by the time the borer appears may be resistant to injury. Delicious squash was planted May 1, May 15, and May 30 in order to test this possible relation of date of planting to injury. No significant difference in yield between May 1 and May 15 plantings was obtained. The May 30 planting produced about 30 percent less fruit than the previous plantings. This difference was probably due more to cultural conditions than to borer injury, although the latter was a factor. The general borer infestation was so light that insecticidal treatments did not produce such striking results as are sometimes obtained. Rotenone dust, applied at weekly intervals, appeared to be the most effective of the materials used. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
